Algebra & Geometry EOC Bootcamps

Dear Parent/Guardian,

As we approach the testing season, all students at Fort Pierce Westwood Academy are hard at work to prepare for upcoming end-of-course exams. To help students reach their fullest potential on these important state exams, **FPWA is excited to invite your student to attend our after-school End of Course Exam Bootcamps.**

These bootcamps, **for students in Algebra 1 and Geometry**, will be provided **free-of-charge** and will provide an opportunity for students to receive small-group instruction and practice with the same style of questions that will be asked on their state exams.

The **bootcamp sessions will be run twice a week (Mon/Wed or Tues/Thurs) from 2:00 - 4:00 pm**, beginning March 2. For students requiring transportation, an activity bus will depart the school at 5:00pm (bus stop locations to be announced).

Please **choose from the options below** so that we can ensure there are materials for all students and return the detached portion to your student's Algebra or Geometry teacher by Friday, February 28th.

Sincerely,

Joseph Lezeau
Proud Principal
Fort Pierce Westwood Academy

Student Name: _____ Algebra/Geometry Teacher _____

Parent Signature: _____ Parent Phone Number: _____

Please select one choice from each the following options below:

- 1) Student tutoring attendance: Will be attending _____ OR Will not be attending _____
