

MYP Personal Project Components

This overview describes the components of a complete personal project that is ready to be submitted to the student's supervisor for assessment or to the IB for moderation.

To include:	Prompts:
MYP personal project coversheet	You can find this in the MYP Digital Notebook "MYP personal project coversheet". Complete the cover sheet at the very end of the project.
MYP projects academic honesty form	You can find this in the MYP Digital Notebook "MYP projects academic honesty form". You will need this form from the beginning of your project since you must complete three sections during meetings with your supervisor. You may want to use a rough draft, which you can transfer to the final copy at the end of your project.
Evidence of your product/outcome	You need to include evidence of the product/outcome. You can include (a copy of) the product itself, or extracts of the product, or up to five still images or 30 seconds of video of the product/outcome.
Project report	Your report can be in written, electronic, oral, visual or combination of formats. The report is distinct from your process journal and product/outcome. In the report, you discuss the process you carried out and what you learned from completing the personal project. Your report should be structured in identifiable sections, following the MYP projects objectives.
Appendices: Process journal extracts (Supporting visual aids for oral presentations)	These are short sections from your process journal that exemplify the knowledge, processes and skills you developed through the project. If your report is an oral presentation, you may include the visual aids you used, but they will count towards the 10 A4 pages or (annotated) screenshots you can submit in the appendices.
Bibliography/sources	You must include a bibliography that follows a recognized convention appropriate for the task. You may use in-text citations, footnotes/endnotes or other recognized systems to credit the ideas of others in your work
