  - 2023-2024 School Improvement Plan: Mrs. Wigginton explained how the school looked at data to determine which areas needed to be included in the school improvement plan. Last year a new test was implemented, and the students had to take the tests on a computer. We had a 5% drop compared to the previous year in math, our science scores stayed the same, and our school dropped 2% in reading. Our three key areas of focus are student attendance, collaborative planning including small group instruction with differentiation, and recruitment and retention. The district has initiated a push to improve attendance. Teachers are meeting together frequently to work on small group instruction to help students with differentiation and different gaps are filled. Each coach meets twice weekly to assist in this process.
  - We were identified as a RAISE school based on reading proficiency in first, second, and third. Students will receive remediation as needed to help them in needed areas.
  - Title 1 updates: Ms. Watson discussed our first title one night that is on August 31<sup>st</sup>. This is an information night for our parents and is used to inform parents of different things that will happen throughout the year. Parents will provide feedback about what options areas they would be interested in learning about this year. A meal will be provided for all families in attendance and kids will participate in a movie or readers theater while the parents are in the cafeteria. Wednesdays were determined to be the best night for our Title 1 events. Parents approved this night.
- Next Meeting September 20, 2023 at 4:30 PM
- Meeting Adjournment: Motion: Mrs. Battipaglia motioned to adjourn the meeting at 5:05 PM. Mrs. Madden seconded. Motion carried unanimously.
