

Port St. Lucie High School

IB Internationalism Policy

At Port St. Lucie High School (PSLHS) the faculty and staff aim to imbed internationalism across the curriculum. We utilize multicultural resources to enrich our student's understanding of the world and to raise awareness regarding global issues. In addition, we encourage our students to gain a better understanding of their impact globally and how to be an aware and active citizen of the world.

To build for internationalism at PSLH, teachers and students will . . .

- Collaborate to organize resources and align curriculum.
- Address global issues involving environmental awareness, social injustices, cultural understanding, etc.
- Expand their understanding about a region of the world by utilizing JagTV, SLCs and student activities.
- Utilize their personally issued Dell E5450 Laptop through the St. Lucie County @ccess Now initiative. PSLHS is proud to pilot this project designed to help our students learn at high levels and give our students world-class access to information and learning tools.

Operating System: Windows 7 Professional

Master Application Software: Office 365

Students will:

Be prepared to meet 21st Century Challenges

Practice and hone decision-making skills

Engage in critical thinking skills that will globally connect them

Enhance organizational skills and be ready for college and the workplace
